

EXCELDOR
FOODS LTD.

Committed to sustainability practices

DOING OUR PART TO PROTECT THE ENVIRONMENT

OUR RECYCLING AND PLANT IMPROVEMENTS CONTRIBUTED TO THE CONSERVATION OF THESE RESOURCES

* Equivalent of 23k litres of gasoline consumed

** Equivalent of running 924k 60W light bulbs for 1 hour

PARTNER

- Working in partnership with our customers, growers, suppliers and other stakeholders and recognize that they are an integral part of our sustainability efforts.
- Building long term relationships is just as important with our suppliers as it is with our customers.
- Be Partner of Choice.

SOCIAL

- Improving the communities we operate in.
- Promoting sustainable agricultural and commercial practices and participate in philanthropic initiatives.
- Partner with our customers, suppliers and other stakeholders to leverage our combined resources.
- Promote nutrition for children and our consumers.
- Support Local Foodbanks

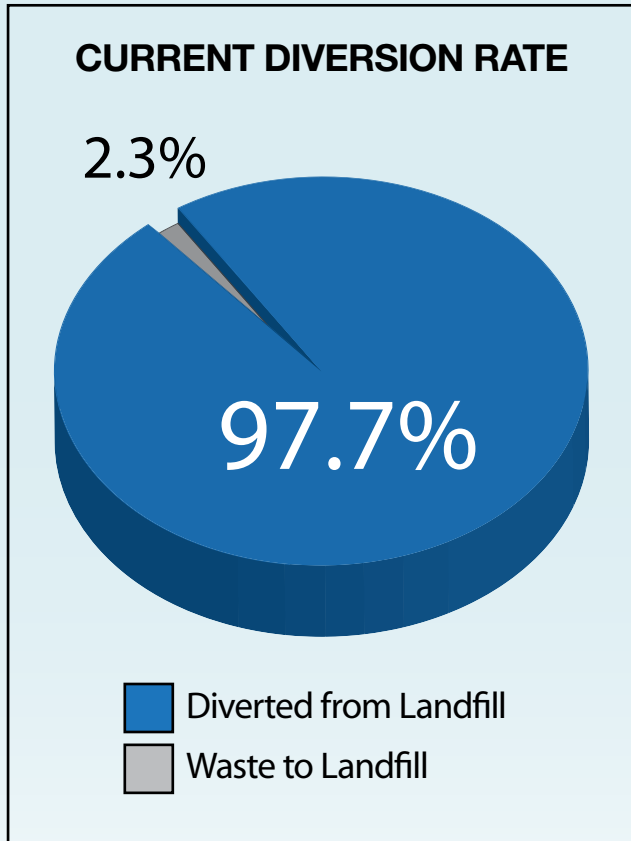

ENVIRONMENTAL

- Success of our organization is directly linked to the health of the planet and its resources.
- Engaging our employees and create a culture of continuous improvement.
- Implementing LEAN manufacturing processes, tools and techniques to drive costs out of the system.
- Focus to eliminate waste.

ON-GOING INITIATIVES

- All Waste Oil recycled
- Waste water solids directed to a biofuel station
- LED lighting installed on production floor in 2017 – 6% less electricity used per kg
- Boiler system replaced for new efficient system in 2018 – 2.5% GHG facility emissions reduction since install
- Air quality testing performed annually
- Noise quality testing performed annually
- Moving to paperless QA system in 2019
- Halogen lights will be replaced with LED lights in plant offices - a savings of 60,000 kw hours
